

# CIEH Level 2 Award in Environmental Principles and Best Practice

This one day qualification provides an awareness of key environmental concepts and an introduction to environmental management systems.

Environmental issues impact on every organisation. The rising costs of energy and raw materials, growing awareness of stakeholders and increasing environmental legislation are forcing organisations to address their own environmental performance.

Many organisations have identified that tackling environmental issues can bring benefits to their business including reduced waste and utility costs, reduced liabilities and access to new markets and investors. This qualification has been designed for all members of staff whose activities could have a significant impact on the environment, or supervisors or managers who are being introduced to environmental issues for the first time.

## The qualification covers the following topics:

- Environmental impacts and sustainability
- Understanding environmental aspects
- Principles of environmental law
- Energy use and carbon management
- Resource efficiency and waste minimization
- Water management
- Pollution prevention and emergency planning
- Environmental management systems

Assessment is via a 30 question multiple choice question paper.

The cost of this course run at your site for a group of up to 14 is £525 + VAT in addition there is a £15 + VAT certification fee for each student. A comprehensive manual is also included for each student.
